Straightforward Energy Advice

Energy Factsheets

These energy factsheets were designed to help you keep warm more efficiently and save money on your energy bills.

The factsheets available are;

- 1) Your gas central heating system
- 2) Economy 7 and electric storage heaters
- 3) Condensation and its causes
- 4) Low or no cost energy saving tips
- 5) Energy suppliers and price factsheets

There are also Energywatch factsheets available that can inform you about the cheapest energy suppliers for where you live.

For more information on becoming more energy efficient please contact the Gloucestershire Energy Efficiency Advice Centre on 0800 512 012.
