

# Social Housing Forum

SHARE Partner name	ESS
--------------------	-----

Region Covered	Mönsterås and Oskarshamn
----------------	--------------------------

Central Aim	To facilitate open dialogue between key public landlords in order to share best practice and promote collaborative actions in the field of energy efficiency and low carbon technologies. To speed up the process and to help the public landlords to get a grasp over the energy situation. To find solutions that are reasonable both from an economical point of view as well as comfort issues for the residents and environmental issues.
-------------	--

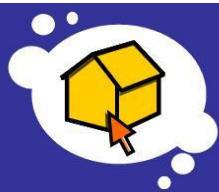

## Objectives

The aim of the energy forums is to generate an open discussion and sounding board during the SHARE project in order to find the best solutions for the needs of training and awareness campaign.

- Planning and reviewing awareness campaign
- Identifying the scope of training among the staff and the tenants
- Developing awareness for energy and environmental issues among both the staff as well as the residents.
- Finding solutions for buildings, which still are heated by oil or electricity.
- Help the public housing companies to find their opportunities for energy efficiency
- Inform of different ways of financing energy project
- To show best practice
